**TITLE 3. DEPARTMENT OF FOOD
AND AGRICULTURE**

NOTICE IS HEREBY GIVEN that the Department of Food and Agriculture amended Section 3423(b) of the regulations in Title 3 of the California Code of Regulations pertaining to Oriental Fruit Fly Interior Quarantine as an emergency action that was effective August 4, 2009. The Department proposes to continue the regulation as amended and submit a Certificate of Compliance for this action no later than February 28, 2010.

A public hearing is not scheduled. A public hearing will be held if any interested person, or his or her duly authorized representative, submits a written request for a public hearing to the Department no later than 15 days prior to the close of the written comment period. Following the public hearing if one is requested, or following the written comment period if no public hearing is requested, the Department of Food and Agriculture may certify that there was compliance with provisions of Section 11346.1 of the Government Code within 180 days of the emergency regulation.

Notice is also given that any person interested may present statements or arguments in writing relevant to the action proposed to the agency officer named below on or before February 1, 2010.

**INFORMATIVE DIGEST/POLICY STATEMENT
OVERVIEW**

Existing law obligates the Department of Food and Agriculture to protect the agricultural industry of California and prevent the spread of injurious pests (Food and Agricultural Code Sections 401 and 403). Existing law provides the Secretary may establish, maintain, and enforce quarantine regulations, as he deems necessary, to circumscribe and exterminate or prevent the spread of pests (Food and Agricultural Code, Sections 5301, 5302 and 5322).

The amendment of Section 3423(b) established a quarantine area of approximately 84 square miles surrounding the Laverne area of Los Angeles County. The effect of the change is to provide authority for the State to regulate movement of hosts of Oriental fruit fly from,

into, and within that area under quarantine to prevent artificial spread of the fly to noninfested areas to protect California's agricultural industry. The proposed action does not differ from any existing, comparable federal regulation or statute.

**COST TO LOCAL AGENCIES
AND SCHOOL DISTRICTS**

The Department of Food and Agriculture has determined that Section 3423 does not impose a mandate on local agencies or school districts, except that an agricultural commissioner of a county under quarantine has a duty to enforce Section 3423. No reimbursement is required for Section 3423 under Section 17561 of the Government Code because the Los Angeles County Agricultural Commissioner requested the change in the regulation.

The Department also has determined that the amended regulation will involve no additional costs or savings to any state agency, no reimbursable costs or savings under Part 7 (commencing with Section 17500) of Division 4 of the Government Code to local agencies or school districts, no nondiscretionary costs or savings to local agencies or school districts, and no costs or savings in federal funding to the State.

EFFECT ON HOUSING COSTS

The Department has made an initial determination that the proposed action will not affect housing costs.

EFFECT ON BUSINESSES

The Department has made an initial determination that the proposed action will not have a significant statewide adverse economic impact directly affecting California businesses, including the ability of California businesses to compete with businesses in other states.

**COST IMPACT ON REPRESENTATIVE
PRIVATE PERSON OR BUSINESS**

The cost impact of the amended regulation on a representative private person or business is not expected to be significantly adverse. A representative person or business could incur costs of approximately \$92 per year in reasonable compliance with the proposed action.

ASSESSMENT

The Department has made an assessment that the proposed amendments to the regulations would not (1)

create or eliminate jobs within California, (2) create new business or eliminate existing businesses within California, or (3) affect the expansion of businesses currently doing business within California.

ALTERNATIVES CONSIDERED

The Department of Food and Agriculture must determine that no reasonable alternative considered by the Department or that has otherwise been identified and brought to the attention of the Department would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.

AUTHORITY

The Department proposes to amend Section 3423(b) pursuant to the authority vested by Sections 407, 5301, 5302 and 5322 of the Food and Agricultural Code.

REFERENCE

The Department proposes this action to implement, interpret and make specific Sections 5301, 5302 and 5322 of the Food and Agricultural Code.

EFFECT ON SMALL BUSINESS

The amendment of this regulation may affect small businesses.

TITLE 3. DEPARTMENT OF FOOD AND AGRICULTURE

NOTICE IS HEREBY GIVEN that the Department of Food and Agriculture adopted Section 3436 of the regulations in Title 3 of the California Code of Regulations pertaining to the White Striped Fruit Fly Interior Quarantine as an emergency action that was effective July 31, 2009. The Department proposes to continue the regulation as amended and submit a Certificate of Compliance for this action no later than February 28, 2010.

A public hearing is not scheduled. A public hearing will be held if any interested person, or his or her duly authorized representative, submits a written request for a public hearing to the Department no later than 15 days prior to the close of the written comment period. Following the public hearing if one is requested, or following the written comment period if no public hearing is requested, the Department of Food and Agriculture may certify that there was compliance with provisions of Section 11346.1 of the Government Code within 180 days of the emergency regulation.

Notice is also given that any person interested may present statements or arguments in writing relevant to the action proposed to the agency officer named below on or before February 1, 2010.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Existing law obligates the Department of Food and Agriculture to protect the agricultural industry of California and prevent the spread of injurious pests (Food

and Agricultural Code Sections 401 and 403). Existing law provides the Secretary may establish, maintain, and enforce quarantine regulations, as he deems necessary, to circumscribe and exterminate or prevent the spread of pests (Food and Agricultural Code, Sections 5301, 5302 and 5322).

The adoption of Section 3436 established the target pest, white striped fruit fly (*Bactrocera albistrigata*), the area under quarantine in Los Angeles and San Bernardino counties (approximately 81 square miles), the articles and commodities covered and the restrictions on the articles and commodities covered. The effect of the adoption of this regulation is to provide authority to the State to conduct quarantine activities against the white striped fruit fly in portions of Los Angeles and San Bernardino counties to prevent artificial spread of the fly to noninfested areas to protect California's agricultural industry. The proposed action does not differ from any existing, comparable federal regulation or statute.

COST TO LOCAL AGENCIES AND SCHOOL DISTRICTS

The Department of Food and Agriculture has determined that Section 3436 does not impose a mandate on local agencies or school districts, except that an agricultural commissioner of a county under quarantine has a duty to enforce Section 3436. No reimbursement is required for Section 3436 under Section 17561 of the Government Code because the Los Angeles and San Bernardino county agricultural commissioners requested the change in the regulation.

The Department also has determined that the amended regulation will involve no additional costs or savings to any state agency, no reimbursable costs or savings under Part 7 (commencing with Section 17500) of Division 4 of the Government Code to local agencies or school districts, no nondiscretionary costs or savings to local agencies or school districts, and no costs or savings in federal funding to the State.

EFFECT ON HOUSING COSTS

The Department has made an initial determination that the proposed action will not affect housing costs.

EFFECT ON BUSINESSES

The Department has made an initial determination that the proposed action will not have a significant statewide adverse economic impact directly affecting California businesses, including the ability of California businesses to compete with businesses in other states.

COST IMPACT ON REPRESENTATIVE PRIVATE PERSON OR BUSINESS

The cost impact of the amended regulation on a representative private person or business is not expected to be significantly adverse. A representative person or business could incur costs of approximately \$88 per year in reasonable compliance with the proposed action.

ASSESSMENT

The Department has made an assessment that the proposed amendments to the regulations would not (1) create or eliminate jobs within California, (2) create new business or eliminate existing businesses within California, or (3) affect the expansion of businesses currently doing business within California.

ALTERNATIVES CONSIDERED

The Department of Food and Agriculture must determine that no reasonable alternative considered by the Department or that has otherwise been identified and brought to the attention of the Department would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.

AUTHORITY

The Department proposes to adopt Section 3436 pursuant to the authority vested by Sections 407, 5301, 5302 and 5322 of the Food and Agricultural Code.

REFERENCE

The Department proposes this action to implement, interpret and make specific Sections 5301, 5302 and 5322 of the Food and Agricultural Code.

EFFECT ON SMALL BUSINESS

The amendment of this regulation may affect small businesses.

TITLE 9, CALIFORNIA CODE OF REGULATIONS ADOPT CHAPTER 16 REGARDING CONTRABAND ELECTRONIC DEVICES

NATURE OF PROCEEDING

NOTICE IS HEREBY GIVEN that the Department of Mental Health (DMH) is proposing to take the action described in the Informative Digest.

A public hearing regarding this proposal will be held on February 9, 2010, in the Auditorium at the Department of Water Resources located at 1416 Ninth Street in Sacramento, California. It will start at 9:00 a.m. and end when all comments have been received or at 5:00 p.m. whichever comes first.

Following the public hearing the Department of Mental Health may thereafter adopt the proposals substantially as described below or may modify the proposals if the modifications are sufficiently related to the original text. With the exception of technical or grammatical changes, the full text of any modified proposal will be available for 15 days prior to its adoption from the person designated in this Notice as contact person and will be mailed to those persons who submit written comments related to this proposal, or who provide oral testimony if a public hearing is held, or who have requested notification of any changes to the proposal.

AUTHORITY AND REFERENCE

Pursuant to the authority vested by Sections 4005.1, 4027 and 4101 of the Welfare and Institutions Code, and to implement, interpret or make specific section 4027 of the Welfare and Institutions Code, the Department of Mental Health (DMH) is seeking changes to Division 1 of Title 9 of the California Code of Regulations as follows: Adoption of Chapter 16, Article 3, Section 4350; and Reserving Chapter 16, Articles 1 and 2.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

The objective of the proposed action is to implement, interpret, or make specific section 4027 of the Welfare and Institutions Code to ensure the safety and security of individual patients and state hospital facilities.

Section 4350 identifies as a prohibited contraband wired and/or wireless electronic devices that have communication and/or internet capabilities, and provides examples of such prohibited electronic devices.

Emergency regulations containing the identical language of the proposed regulation were filed with the Office of Administrative Law (OAL) on October 15, 2009, and were accepted for filing by the OAL on October 26, 2009. To make the emergency regulation language permanent after the expiration of the 180-day period during which time the language has the force and effect of law, DMH needs to complete this regular, noticed rulemaking action, and submit to OAL, along with a certification that it has complied with the procedures for a regular, noticed rulemaking action no later than April 26, 2010.

LOCAL MANDATE

This proposal does not impose a mandate on local agencies or school districts.

FISCAL IMPACT ESTIMATES

This proposal does not impose costs on any local agency or school district for which reimbursement would be required pursuant to Part 7 (commencing with Section 17500) of Division 4 of the Government Code. This proposal does not impose other nondiscretionary costs or savings on local agencies. This proposal does not result in any costs or savings in federal funding to the state.

COSTS OR SAVINGS TO STATE AGENCIES

No additional costs or savings to state agencies are anticipated.

BUSINESS IMPACT/SMALL BUSINESSES

The Department of Mental Health has made a determination that the proposed regulatory action would have no significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. The proposal does not affect small businesses as defined by Government Code Section 11342.610 because the proposed regulation only restricts the possession and use of contraband electronic devices by individual patients in a secure state hospital facility.

ASSESSMENT REGARDING EFFECT ON JOBS/BUSINESSES

The Department of Mental Health has determined that this regulatory proposal will not have any impact on the creation of jobs or new businesses or the elimination of jobs or existing businesses or the expansion of businesses in the State of California.

COST IMPACTS ON REPRESENTATIVE PERSON OR BUSINESS

The Department of Mental Health is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

EFFECT ON HOUSING COSTS

None.

CONSIDERATION OF ALTERNATIVES

The Department of Mental Health has determined that no reasonable alternative which it has considered or that has otherwise been identified and brought to its attention would be more effective in carrying out the purpose for which this action is proposed or would be as effective and less burdensome to affected private persons than the proposed action described in this Notice.

TITLE 11. DEPARTMENT OF JUSTICE

NOTICE OF PROPOSED RULEMAKING

The Department of Justice (“Department” or “DOJ”) proposes to amend sections 4047, 4049, 4050, 4051, 4052, 4053, 4057, 4058, 4059, 4060, 4061, 4062, 4063, 4064, 4065, 4066, 4067, 4068, 4070, 4071, 4072, 4073, and 4074, proposes to remove Section 4055, and proposes to add section 4075 of Title 11, Division 5, Chapter 5 of the California Code of Regulations (CCR) with regard to firearm microstamping after considering all comments, objections, and recommendations regarding the proposed action.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Pursuant to California Penal Code sections 12125 and 12126, only handguns that are on a DOJ roster of handguns identified as not “unsafe” can be sold by licensed firearms dealers in this state. As of January 1, 2010, a new law mandates that for a new model of semiautomatic pistol to be placed on the DOJ roster of “not unsafe” handguns (models currently on the roster are excluded), the pistol must be designed and equipped with a microscopic array of characters that identify the make, model and serial number of the pistol, etched or otherwise imprinted in two or more places on the interior surface or internal workings parts of the pistol, that are transferred by imprinting on each cartridge case expended from the pistol when the firearm is fired. But under the new law, the requirement only takes effect “provided that the Department of Justice certifies that the technology used to create the imprint is available to more than one manufacturer unencumbered by any patent restrictions.” The proposed regulations amend sections 4049, 4059, 4061, and 4062 to provide specific criteria that semiautomatic pistols and certified test laboratories must meet to comply with the new requirements relating to microstamping. The proposed amendments to sections 4047, 4050, 4053, 4057, 4058, 4063,

4065, 4066, 4067, 4068, and 4070 through 4074 are non-substantive amendments that have no impact on the regulations or persons subject to the regulations. The proposed regulations also add section 4075, which describes the method for an alternative method of microstamping technology to be approved by the Department.

Sections 4047, 4050, 4053, 4057, 4058, 4063, 4065, 4066, 4067, 4068, and 4070 thru 4074

The only proposed amendments made to these sections replace the symbol “§” with the word “section” and/or updating the form number and form revision date. These non-substantive amendments have no impact on the regulations, or persons subject to the regulations.

Section 4049. Definition of Key Terms

Currently, this section defines the key terms used throughout the regulations. The proposed amendment will define a new term “FIN.” “FIN” is defined as the “firearm identification number comprised of a unique array of characters that identify the make, model and serial number of each pistol subject to the microstamping requirement for semiautomatic pistols set forth in subdivision (b)(7) of Penal Code section 12126 and which can be used to identify the pistol when it is traced through DOJ’s Automated Firearms System (AFS). The FIN shall consist of at least eight, but no more than 12, unique alpha and/or numeric characters that must begin with the manufacturer’s NCIC MAK code.”

The proposed amendment will also reorder the key terms in correct alphabetical order and will correct “BATF” to “ATE,” the current acronym for the Federal Bureau of Alcohol, Tobacco, Firearms and Explosives.

Section 4051. Application for DOJ-Certification

The proposed amendments to this section are to change “FD” to “BOF,” which is the current acronym used on the Department’s Bureau of Firearm (BOF) forms, change the revision dates of the BOF forms, and change the “§” symbol to the word “section.” An additional amendment removes the reference to Parts B, C, D, F and G of the DOJ-Certification application because those parts were deleted in the revised application.

Section 4052. Pre-DOJ-Certification Requirements

The proposed amendment to this section changes the “§” symbol to the word “section.” Additionally, the proposed amendment specifies requirements for the microscope and digital camera necessary for examination of expended casings and, because of those added specifications, rennumbers the sections.

Section 4055. Appeal Process

Currently, this section defines the time periods for processing an Application by a handgun testing laboratory for DOJ-Certification. The proposed amendment

deletes this section in its entirety because the Permit Reform Act (Government Code section 15374 through 15378), upon which this section was based, was repealed.

Section 4059. Which Handguns Must be Tested, Who May Submit Handguns, Submission Requirements

The proposed amendment to this section changes the “§” symbol to the word “section.” Also, the proposed amendment includes the requirement that a statement by the manufacturer indicating that each handgun of the make and model of semi-automatic pistol submitted for testing is designed and equipped with a FIN etched or otherwise imprinted in two or more places on the interior surface or internal working parts of the pistol that is transferred by imprinting on each cartridge case expended from the pistol when the pistol is fired. The FIN must be displayed or recorded on the manufacturer’s packaging on any semi-automatic pistol which is imported into the state for sale, kept for sale, offered or exposed for sale, given, or lent in the state and subject to the microstamping requirement set forth in Penal Code section 12126, subdivision (b)(7).

Section 4060. Testing Procedures

The proposed amendment to this section changes the “§” symbol to the word “section.” Also, “BATF” is changed to “ATE,” the current acronym used for the Federal Bureau of Alcohol, Tobacco, Firearms and Explosives.

Additional proposed amendments to this section will require the DOJ-Certified laboratory, in order to verify that every semiautomatic pistol complies with the microstamping requirement, to fire each handgun of that make and model two times before the firing portion of the testing, collect and label the two cartridge casings, retain the casings for possible later analysis, and then to repeat the process after the firing portion of the testing. The proposed amendment also includes procedures and criteria to examine the cartridge casings collected from each tested semiautomatic handgun and requires the DOJ-Certified laboratory to report a handgun to the DOJ as “not unsafe” if it complies with the microstamping requirement for semiautomatic pistols.

Section 4061. Test Reporting

Currently, the regulations require the DOJ-Certified handgun testing laboratory to submit one tested handgun with the Compliance Test Report. The proposed amendment to this section will require the DOJ-Certified handgun testing laboratory to also submit all expended cartridge casings collected from the pistol during testing pursuant to section 4060, subdivisions (e) and (g) of these regulations and all photographs of expended cartridge casings taken pursuant to section 4060, subdivision (h) of these regulations. Other proposed amendments change the “§” symbol to the word

“section,” change “FD” to “BOF,” the current acronym used on Bureau of Firearm (BOF) forms, and change the revision dates of the BOF forms.

Section 4062. Required Records, Retention Periods, Reporting Changes

The proposed amendment to this section changes the “§” symbol to the word “section,” change “FD” to “BOF,” the current acronym used on Bureau of Firearm (BOF) forms, and change the revision dates of the BOF forms. A proposed amendment also requires information to be recorded, reported, and maintained as it pertains to the results of the examination of all expended cartridge casings.

Section 4064. Inspections

Currently, the regulations require the DOJ-Certified laboratory to submit to DOJ a monthly schedule of the days when the laboratory plans to perform handgun testing. The proposed amendment will remove this requirement. Another proposed amendment to this section changes the “§” symbol to the word “section.”

Section 4075. Application for Approval of Alternative Method of Microstamping Technology

The proposed amendment seeks to add a section regarding approval of an alternative method of microstamping technology. The new section would provide that, on or after January 1, 2010, any person or corporation may apply to the Attorney General for approval of an alternative method of microstamping technology, provided that the Department of Justice has already certified an original method of microstamping. The new section specifies the information that must be included in the application for such approval. Additionally, it outlines that upon receipt of a completed application, the Attorney General shall determine if the alternative method of microstamping technology is a method of equal or greater reliability and effectiveness. Further, the Attorney General shall determine if the alternative method of microstamping technology is also unencumbered by any patent restrictions.

The hearing will be held in the Department of Water Resources auditorium located at 1416 9th Street, Sacramento, California. The auditorium is wheelchair accessible. At the hearing, any person may present oral or written comments regarding the proposed regulatory action. The Department requests that persons who make oral comments also submit written copy of their testimony at the hearing. Oral and written comments have the same weight in the regulatory process, and will be summarized and addressed in the Final Statement of Reasons for the regulations.

DISCLOSURES REGARDING THE PROPOSED ACTION

The Department has made the following determinations:

Mandate on local agencies or school districts: None

Cost or savings to any state agency: None

Cost to any local agency or school district which must be reimbursed in accordance with Government Code sections 17500 through 17630: None

Other nondiscretionary cost or savings imposed on local agencies: The proposed amendments merely provide specification for statutorily mandated require-

ments and do not by themselves, impose any impact on local agencies.

Cost or savings in federal funding to the state: None

Significant, statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states: None

Cost impacts that a representative person or business would incur in reasonable compliance with the proposed action: DOJ-Certified laboratories will incur estimated costs of \$5,000.00 for a stereo zoom microscope with low magnification of 25x or less and a high magnification of at least 60x. The microscope must be equipped with a ring light for illumination and polarizing filters to aide in reflection control. DOJ-Certified laboratories will also incur an estimated cost of \$600.00 for an optical zoom digital camera to capture a high quality digital photograph of viewed images. All handgun testing laboratories currently certified by DOJ are located outside of California. In addition, costs of conducting additional testing to verify compliance with the microstamping requirement will be passed on to firearm manufacturers, who pay the cost of laboratory testing.

Significant effect on housing costs: None

Small business determination: The proposed amendments merely provide specification for statutorily mandated requirements and do not by themselves, impose any impact on any small businesses.

Assessment regarding effect on jobs/businesses: The proposed amendments will not (1) create or eliminate jobs within California; (2) create new businesses or eliminate existing businesses within California; or (3) affect the expansion of businesses doing business within California.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code section 11346.5, subdivision (a)(13), the Department must determine that no reasonable alternative considered by the Department, or otherwise identified and brought to the attention of the Department, would be either more effective in carrying out the purpose for which the action is proposed, or as effective and less burdensome to affected private persons, than the proposed regulations. The Department invites any person interested in presenting statements or arguments with respect to alternatives to the proposed regulations to do so at the scheduled hearing, or during the written comment period.

AUTHORITY AND REFERENCE

Government Code Section 8670.10 grants the Administrator the authority to carry out announced and unannounced drills and exercises to test the elements of an oil spill contingency plan. Government Code Section 8670.28 outlines the requirements for an oil spill contingency plan. Accordingly, the proposed regulations implement, interpret and make specific Government Code Sections 8670.10 and 8670.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

The Lempert–Keene–Seastrand Oil Spill Prevention and Response Act (Act), enacted in 1990 by Senate Bill 2040, created a comprehensive state oil spill program for marine waters.

The Act mandates that all vessel and marine facility owner/operators shall be prohibited from transporting oil or operating a marine facility which transfer oil to or from a vessel in California, without first obtaining a certificate demonstrating specified levels of financial responsibility to pay for any costs resulting from oil spills occurring in California marine waters, or in locations which could affect California marine waters.

Pursuant to the authority in the Act, OSPR currently has regulations (Title 14, California Code of Regulations, Section 820.01) which establish procedures for conducting drills and exercises of a plan holder's oil spill contingency plan.

This proposal would amend the regulations as follows:

- Correct the term “owner/operator” to “plan holder”.
- Notice requirements for in-state drills/exercises have been amended and clarified.
- Drill documentation has been expanded, and now includes authority for verification by the Administrator.
- Obtaining credit for out-of-state exercises now includes three options:

- Evaluation by the United States Coast Guard or other qualified agency to receive credit for National Preparedness for Response Exercise Program (NPREP) objectives; or

- Submission of all documentation required for an in-state drill, to receive credit for NPREP objectives; or

- Use of an Independent Drill monitor to receive credit for NPREP objectives, and California-specific objectives if a California-based scenario is used.

- Independent Drill Monitor application content, review procedures, approval and renewal procedures, due process for denial of an application, and exercise participation process have been added.

- Clarification on obtaining exercise credit for an actual spill has been added.

BUSINESS IMPACTS

OSPR has made an initial determination that the proposed amendments will not have a significant statewide adverse economic impact directly affecting California businesses, including the ability of California businesses to compete with businesses in other states.

ASSESSMENT OF JOB/BUSINESS CREATION OR ELIMINATION

OSPR has determined that this regulatory proposal will not have a significant impact on the creation or elimination of jobs in the State of California, and will not result in the elimination of existing businesses nor create or expand businesses in the State of California.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code Section 11346.5(a)(13), OSPR must determine that no reasonable alternative that has been considered or that has otherwise been identified and brought to the attention of OSPR would be more effective in carrying out the purpose for which this action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.

With the exception of technical or grammatical changes, the full text of any modified proposal will be available for 15 days prior to its adoption from the person designated in this Notice as contact person and will be mailed to those persons who submit written or oral testimony related to this proposal or who have requested notification of any changes to the proposal.

Authority and Reference: Pursuant to the authority vested by Section 1614 of the Business and Professions

Code, and to implement, interpret or make specific Sections 1601.2 and 1629(b) of the Business and Professions Code, and Penal Code Section 11105, the Board is considering changes to Division 10 of Title 16 of the California Code of Regulations as follows:

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Business and Professions Code Section 1614 authorizes the Board to adopt, amend, or repeal, such rules and regulations as may be reasonably necessary to enable it to carry into effect the provisions of the Dental Practice Act. The Board is proposing the following changes:

The main purpose of the proposed language is to establish requirements that a licensee must furnish a full set of fingerprints to the Department of Justice ("DOJ") as a condition of renewal with the Dental Board ("Board") if the licensee was initially licensed prior to 1999 or if an electronic record of the fingerprint submission no longer exists. Generally, this proposal would:

- (1) set requirements and time frames for when the licensee would be required to submit criminal history information and other related records to the Board;
- (2) specify the conditions and the purpose for which a full set of fingerprints would be required;
- (3) establish that the licensee would be responsible for paying the costs associated with furnishing fingerprints and conducting criminal offender record searches;
- (4) require a licensee to certify compliance with this new fingerprinting requirement on his or her renewal form and maintain records of his or her compliance for at least 3 years;
- (5) authorize a waiver of these new fingerprinting requirements for licensees who are inactive or actively serving in the military outside of the country;
- (6) mandate that licensees disclose on the renewal form whether the licensee has been convicted of a crime, as defined, or had any disciplinary actions taken against any other license he or she holds;
- (7) specify that failure to comply these requirements or submit a full set of fingerprints to DOJ renders any application for renewal incomplete and is grounds for discipline by the Board; and,
- (8) add a new form and application requirement for activating or inactivating a license.

Proposed changes, by section, are more specifically identified as follows.

Add Section 1007. Response to Board Inquiry.

This Section heading and text would provide that if the Board asks a licensee to provide criminal history information, the licensee must respond to the request within 30 days by making available all documents and other records requested, and specifies that the information provided must be accurate. This Section would establish the timeframe for a licensee's compliance with such Board inquiries and would ensure that accurate information is received from the licensee. This Section would protect consumers by assisting the Board's Enforcement staff in the information gathering and investigative process for determining whether a licensee is in compliance with the Dental Practice Act.

Section 1008. Fingerprint and Disclosure Requirements for Renewal of License title and new Section.

This heading text would inform licensees that the Sections that follow relate to fingerprinting and disclosure requirements for the renewal of a license.

Add Section 1008(a)

This Section would establish requirements that a licensee must furnish a full set of fingerprints to the Department of Justice ("DOJ") as a condition of renewal with the Dental Board ("Board") if the licensee was initially licensed prior to 1999 or if an electronic record of the fingerprint submission no longer exists. Licensees need to be made aware that certain groups of licensees will be required to be fingerprinted as a condition of license renewal, and this regulation would authorize the Board to require fingerprinting of these licensees. This Section would protect consumers by giving the Board access to currently available DOJ information relative to criminal arrests and convictions and would enable the Board to determine if violations of the Dental Practice Act have occurred.

Add Section 1008(a)(1)

This Section would establish that the cost of fingerprinting and conducting the criminal history record check must be paid by the licensee. This regulation is necessary to authorize assessment of costs to licensees, which is consistent with fingerprinting and record check costs that have been paid by every other licensee or applicant since 1999.

Add Section 1008(a)(2)

This Section would establish that as part of the renewal process, each licensee will be asked to certify on his or her renewal form whether or not they have submitted fingerprints to the Department of Justice as required.

Add Section 1008(a)(3)

This Section would establish an exemption from or waiver of the fingerprinting requirement if the license is on an inactive status or if the licensee is actively serving in the military outside the country.

Add Section 1008(a)(4)

This Section would require affected licensees to retain a receipt, as specified, of compliance with the fingerprinting requirement for a period of at least three years. This requirement is necessary to provide evidence that a licensee has complied with the fingerprinting requirement.

Add Section 1008(b)

This Section would mandate that if a licensee is convicted of any violation of the law during the prior renewal cycle, the licensee must disclose that fact to the Board, with infractions specified that may be omitted, and requires that any disciplinary action against another license that the licensee may hold must be reported. This reporting requirement is necessary for consumer protection and enforcement of the Dental Practice Act. Many licensees hold other licenses either in California or in other states. This language would assist the Board in obtaining information relative to discipline taken by other corresponding state or government licensing entities. This information is necessary to determine if disciplinary action is warranted pursuant to the Board's authority (e.g., Sections 141 and 1680 of the Business and Professions Code).

Add Section 1008(c)

This Section would establish that failure to comply with these requirements would result in non-renewal of the license until the licensee complies with all of the requirements of this Section (e.g., fingerprinting, disclosure or record-keeping requirements). This requirement is needed to ensure compliance with the unprofessional conduct statutes of the Dental Practice Act and prevents possible renewal of a license for a licensee who has violated the law.

Add Section 1008(d)

This Section would provide that failure to furnish a full set of fingerprints as required is grounds for discipline by the Board. The Board must have the ability to enforce the requirements of the section by disciplining the license of a licensee who refuses to comply with the requirements for fingerprinting. The licensee could be in violation of the law or potentially cause patient harm if the Board does not have the ability to verify the criminal history of its licensees through the DOJ or take action for non-compliance.

Article 4. Continuing Education
Section 1017.2. Inactive Licenses.

Amend Section 1017.2(a)-(b)

This Section would be amended to incorporate by reference the form that is required by the Dental Board for either RDA/RDAEF licensees or dentist licensees to inactivate or activate a license. Licensees would be re-

quired to submit a completed "Application to Activate/Inactivate License", Form LIC-6 (12-09) to restore or make inactive such licenses. This new application would ensure consistency and specificity in the application of the Board's requirements for categories of persons who are not actively engaged in the practice of their professions or who wish to re-activate their licenses.

Amend Section 1017.2(b)

This Section would also be amended to include a requirement that licensees, as a condition of restoring their license, would be required to submit a full set of fingerprints to the DOJ according to the provisions of Section 1008. This provision is necessary to ensure that criminal offender record information continues to be transmitted to the Board upon reactivation of a license.

Add new form incorporated by reference at Section 1017.2(a), (b)

Form LIC-6 (New 12/09)

APPLICATION TO ACTIVATE/
INACTIVATE LICENSE

All licensees who wish to either activate or inactivate their license with the Board would be required to complete and submit this form to the Board for processing.

The form would contain the following:

- A requirement for submission of the name of the licensee;
- A requirement for submission of address information;
- A requirement for submission of the licensee's birth date and the license number;
- A requirement that the applicant certify to the truth and correctness of the information provided, and sign and date the application; and,
- A disclosure regarding the personal information collected on the application and the requirements and uses of that information by the board.

For inactivation requests, the form would include:

- A "Checkbox" indicating that a person wishes to inactivate his or her license;
- A requirement that the applicant acknowledge that he or she understands that upon inactivation that they cannot engage in any conduct for which a license is required and that they must continue to pay the board the required biennial license renewal fee; and,
- A clarification that upon inactivation that the applicant would not need to comply with the continuing education requirements of the Board. However, the form would require the applicant to acknowledge that he or she will complete the

required continuing education courses prior to reactivating his or her license.

For activation requests, the form would include:

- A “Checkbox” indicating that a person is applying to activate his or her license;
- A requirement that the applicant disclose on what date their license was inactivated by the board; and,
- A requirement that the applicant attach evidence that he or she has completed the required number of approved continuing education courses within the last two years preceding this application, as required by the Dental Practice Act.

FISCAL IMPACT ESTIMATES

Fiscal Impact on Public Agencies Including Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: The costs to the Board associated with this regulation for the fiscal year 2010–11 would total \$1,637,830. Board costs associated with this regulation for fiscal year 2011–2012 would total \$1,644,874. For fiscal year 2012–2013, costs would total \$730,619.

Nondiscretionary Costs/Savings to Local Agencies: None

Local Mandate: None

Cost to Any Local Agency or School District for Which Government Code Sections 17500–17630 Require Reimbursement: None

Business Impact: The Board has made an initial determination that the proposed regulatory action would have no significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

AND

The following studies/relevant data were relied upon in making the above determination:

The Board does not believe that this regulation will have a significant adverse economic impact on businesses. There are approximately 750 vendors statewide, including small businesses that provide fingerprinting services. There should be no initial or ongoing cost impact upon the vendors because they are already equipped to provide the service and the fingerprinting of the approximate 30,000 licensees will be extended over a two–year period. Additionally, this proposed regulation would only affect individuals for whom an electronic record of his or her fingerprints does not exist in the DOJ criminal offender record identification data-

base and those licensees that do not comply with the proposed regulation.

Impact on Jobs/New Businesses: The Board has determined that this regulatory proposal will not have a significant impact on the creation of jobs or new businesses or the elimination of jobs or existing businesses or the expansion of businesses in the State of California.

Cost Impact on Representative Private Person or Business: Dentists, Registered Dental Assistants and Registered Dental Assistants in Extended Functions who have not previously been fingerprinted for the Board or for whom a fingerprint record no longer exists, will be required to be fingerprinted at the time of their activation, or reinstatement. The cost for a person to get fingerprinted is approximately \$69.00. Of this fee, \$56.00 goes to the Department of Justice for conducting the background check and providing criminal record reports to the Board; an average of \$14.00 goes to the vendor for fingerprinting the individual. The vendor’s fee ranges from \$5.00 to \$45.00 with the average fee being \$14.00. An individual licensee would pay an average of \$69.00 to comply with this regulation over its lifetime, since it is a one–time requirement.

Effect on Housing Costs: None

EFFECT ON SMALL BUSINESS

The Board has determined that the proposed regulations would not have a significant economic impact on small businesses. There are approximately 750 vendors statewide, including small businesses, which provide fingerprinting services. There should be no initial or ongoing cost impact upon the vendors because they are already equipped to provide the service, and the fingerprinting of the approximate 30,000 licensees will be extended over a two–year period. Additionally, this proposed regulation would only affect individuals for whom an electronic record of his or her fingerprints does not exist in the DOJ criminal offender record identification database and those licensees that do not comply with the proposed regulation.

CONSIDERATION OF ALTERNATIVES

The Board must determine that no reasonable alternative it considered to the regulation or that has otherwise been identified and brought to its attention would either be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposal described in this Notice.

Any interested person may present statements or arguments orally or in writing relevant to the above determinations at the above–mentioned hearing.

Effective **December 18, 2009**, the Office of Environmental Health Hazard Assessment (OEHHA) of the California Environmental Protection Agency is adding the chemicals identified below to the list of chemicals known to the state to cause cancer or reproductive toxicity, for the purposes of Proposition 65.

- *Wood dust* and *zidovudine (AZT)* are being added to the list as known to the state to cause cancer. *Tert-Amyl methyl ether (TAME)* and *ethyl-tert-butyl ether (EBTE)* are being added as known to the state to cause reproductive toxicity.

Health and Safety Code section 25249.8(a) requires that certain substances identified by the International Agency for Research on Cancer (IARC) or the National Toxicology Program (NTP), as described in Labor Code section 6382(b)(1) and (d), be included on the Proposition 65 list as causing cancer. Labor Code sec-

tion 6382(b)(1) references substances identified as human or animal carcinogens by IARC, and Labor Code section 6382(d) references substances identified as carcinogens or potential carcinogens by IARC or NTP.

Health and Safety Code section 25249.8(a) further requires that substances identified in Labor Code section 6382(d) as causing reproductive toxicity be included on the Proposition 65 list. Labor Code section 6382(d) references chemicals within the scope of the federal Hazard Communication Standard that are identified as reproductive toxicants (Title 29, Code of Federal Regulations (CFR), section 1910.1200, Toxic and Hazardous Substances, Occupational Safety and Health Administration). Chemicals are listed under Proposition 65 if they are identified as causing developmental or reproductive toxicity in the latest edition of the American Conference of Governmental Industrial Hygienists (ACGIH) "Threshold Limit Values" (Title 29, CFR, section 1910.1200(d)(3)).

The bases for these listings were described in two public notices both published in the June 12, 2009, issue of the *California Regulatory Notice Register* (Register 2009, No. 24–Z). The titles of the notices were "Request For Comments on Chemicals Proposed For Listing By the Labor Code Mechanism (carcinogens)"; and "Request For Comments on Chemicals Proposed For Listing By the Labor Code Mechanism (reproductive and developmental toxicants)". The publication of the two notices initiated a 30-day public comment period that closed on July 13, 2009.

OEHHA has not established no-significant-risk-levels (NSRLs) for the carcinogens or the maximum allowable dose levels (MADLs) for reproductive toxicants included in this notice. The priority status of the development of these NSRLs and MADLs will be announced in a future version of OEHHA's Proposition 65 Status Report on No Significant Risk Levels for Carcinogens and Maximum Allowable Dose levels for Chemicals Causing Reproductive Toxicity, available at <http://www.oehha.ca.gov/prop65.html>.

A complete, updated Proposition 65 list is published elsewhere in this issue of the *California Regulatory Notice Register*. The table below summarizes the changes made today to the Proposition 65 list.

CALIFORNIA GAMBLING CONTROL

Credit, Check, and ATMs

This action amends section 12388 which established the California Gambling Control Commission's requirements for extension of credit, check cashing and automatic teller machines. Section 12388 currently prohibits cardrooms from extending credit to a gambling business or third party provider of proposition player services (TPPS), when that credit is to be used to play a game that has a player-dealer position. It also requires licensees, prior to extending credit, to ensure that the patron is credit worthy. These amendments:

1. Specify that these credit prohibitions apply to an owner, supervisor, player or other employee of a gambling business or TPPS, and only when the TPPS is under contract with that cardroom. A cardroom cannot extend credit to a house prop player when the credit is to be used in a game with a player-dealer position. The regulatory amendments further refine and clarify the conditions under which the extension of credit is prohibited.

2. Clarify that the cardroom must verify patron information and assess their credit worthiness prior to extension of credit. They also allow a cardroom to use the "previous credit transactions" method of approval only when a patron actually has a credit history with that cardroom.

3. Further refine when credit reports are retained by cardrooms. (Only if the "credit report option" was used to approve the credit and only kept for so long as the credit account is open.)

4. Prohibit cardrooms from extending additional credit if a person is delinquent in an existing loan by more than 90 days (based on the terms of the original credit agreement and not subsequent revisions).

5. Further refine replacement check policies for undeposited and dishonored checks.

6. And further clarifies other check cashing procedures.

MEDICAL BOARD OF CALIFORNIA

Review of International Medical Schools

This rulemaking action amends Section 1314.1 of Title 16 of the California Code of Regulations to update and clarify the criteria used to evaluate the competency and quality of foreign medical schools by the Medical Board of California. The rulemaking eliminates the requirement that a school be government owned and operated and that the country in which it is located be a member of the Organization for Economic Cooperation and Development. The amendments to the regulation

clarify that curriculum must be outcome based, that “professionalism” is taught, that admitted students generally meet equivalent entrance requirements as those students admitted to U.S. medical schools, that affiliations with other schools wherein part of the coursework may be completed are disclosed, and that data are collected on such matters as the percentage of graduates who ultimately become licensed and concerning any significant increases in enrollment.
